

# UK - From Policy to Practice

UK is a diverse and multi-cultural society. State schools are local community schools. These are some of my pupils/students

# Addressing inequality

Inequality is often rooted in organisational cultures and often arises from an uncritical acceptance of a 'traditional' way of doing things.

Without **recognition** and **action** to **eliminate** such **unfairness** it can prevail as part of the ethos or culture of the organisation.

# Inclusive education

## **All children**

- **Provided with appropriate learning**
  - **To achieve full potential**
  - **Within their own community**
- (not just children with disabilities)

# UK Policy relates to learning

The difference between -  
integrated  
and  
inclusive education

relates to **access** and **quality**.

Integrated education tends to focus more on children with disabilities attending school

Whereas

inclusive education focuses more on ensuring children with disabilities are **learning**.

# Inclusion is...

...understanding  
your school  
community

... valuing  
everyone

...about the  
needs of the  
whole  
community

...celebrating  
diversity and  
individuality

...not an 'add  
on' or an  
afterthought

...not just about  
the IEPs

...valuing  
other cultures

...knowing and  
understanding the  
needs of all pupils

...changing the way  
things are organised  
so they suit pupil  
needs

...reflecting on  
your practice

...not just  
about  
access

...everybody's  
responsibility

..providing  
flexible  
learning

...more  
than just a  
policy

**UK Policy and Practice is built upon**

# UK schools need to consider

## LAW

- **unlawful** for a school or other education provider *to treat a disabled student unfavourably or less favourably*

**This requires** institutions to *anticipate changes* they need to make

The Equality Act 2010 (UK)

## EXPERTISE

- Teachers' Standards
- SENCO qualification
- Inspection Framework
- Code of Practice

## DATA

- Schools have to provide data to Inspectors to show pupil progress
- Schools must provide parents with data on spending on SEN

## Some (relatively) recent developments and the focus is on learning

- New Code of Practice
- New Inspection Framework
- New Teachers' Standards
- Equality Duties

These are the “rule” books

The aim is -  
‘Narrowing the Gap’

The system is supported  
by data

# Guiding principles

- Involvement in decision making (children, parents and young people)
- Early Identification of needs
- Its about **learning** (inc G&T) and not necessarily classification
- Collaborative process
- High quality provision - most needy pupils with most skilled and qualified teachers
- Performance data for lowest 20%
- Greater choice and control over support
- Successful preparation for adulthood, including independent living and employment

# EHCP – aka The Single Plan

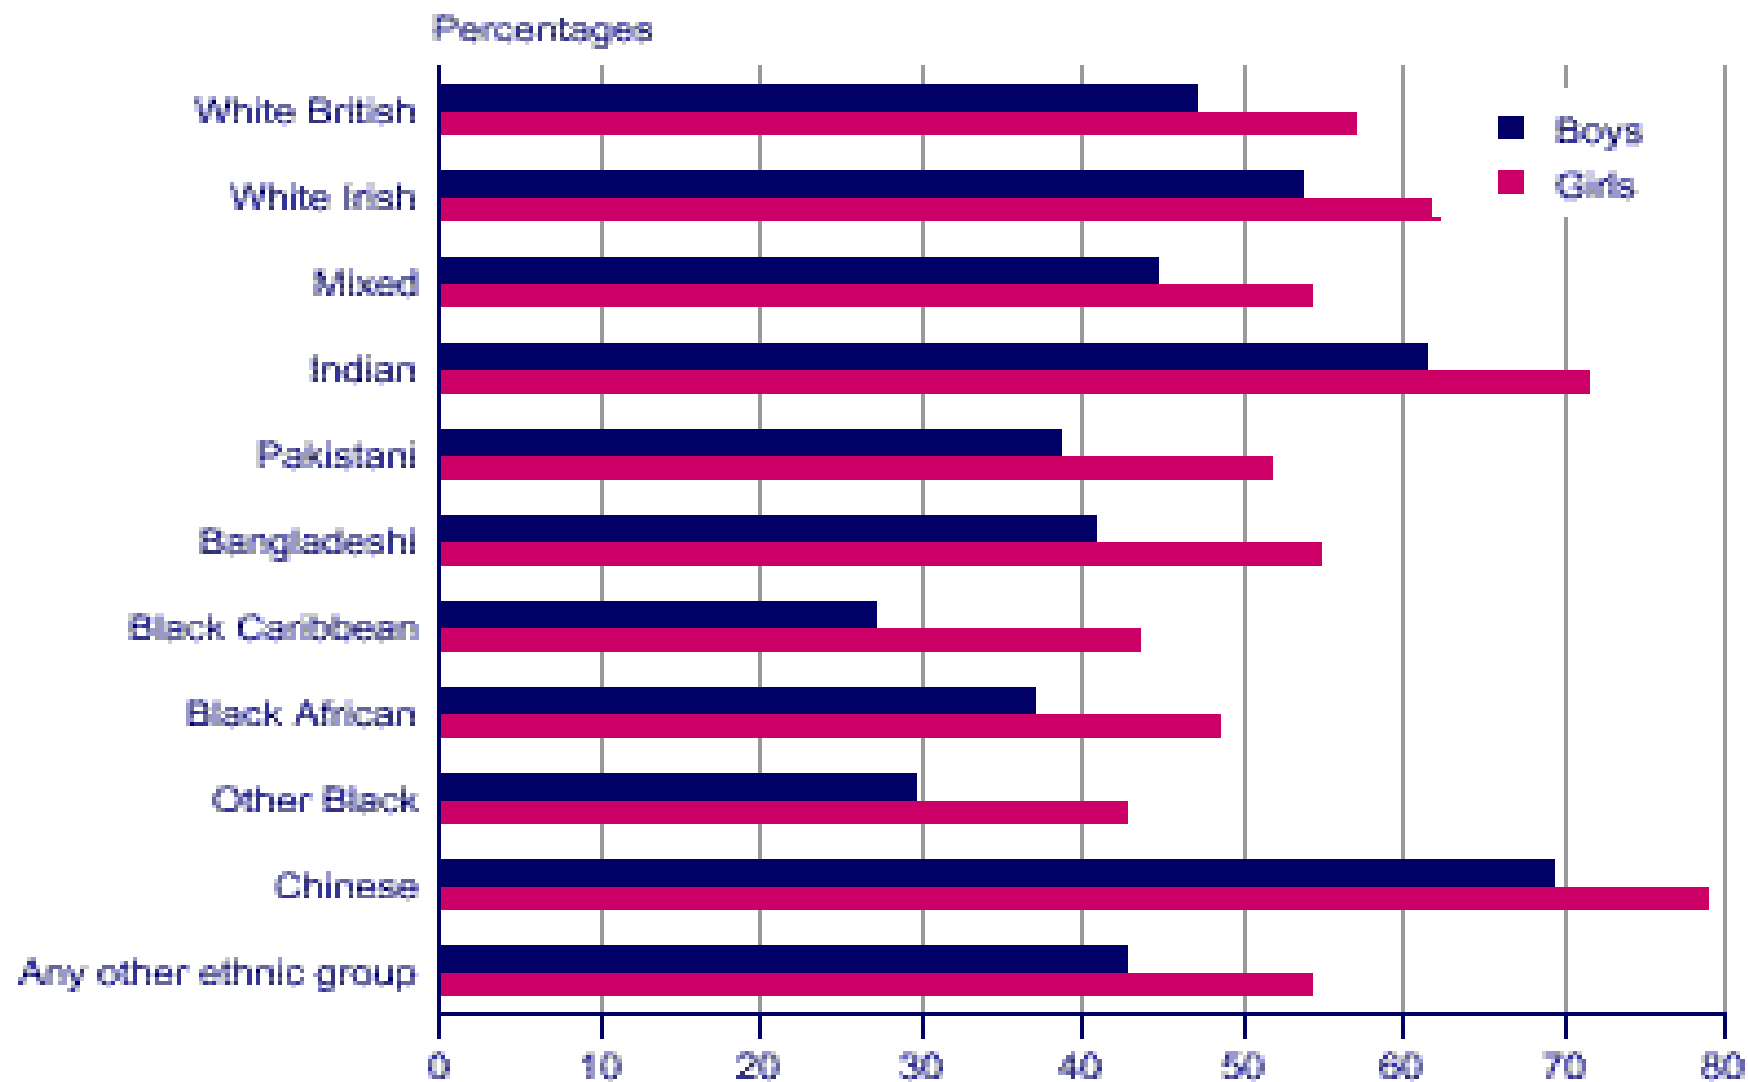

## A tool for tracking progress

**Buckinghamshire  
Learning Trust**

# An increasing number of SEN students in Higher Education

- United Kingdom : from 2% of the student population in 1994-95 to 6.5% in 2006
- France : from 695 SWD registered in 1981 to 8 763 (0.4%) in the year 2006-07.
- Sweden : + 125% between 1993 and 1999.
- Germany: from 16% of total student population in 2003 to 18.9% in 2006.

On 11 June 2014 Rob Buckland PM asked in PQ if higher education institutions received funding to assist them with their duties under the Equality Act 2010:

Higher Education: Disability

Mr Buckland: To ask the Secretary of State for Business, Innovation and Skills what funding is currently allocated to higher education institutes to assist them in fulfilling their responsibilities to disabled students under the Equality Act 2010.

11: In the academic year 2013/14 £15 million was allocated to higher education institutions through the Higher Education Funding Council for England (HEFCE) grant, to help them recruit and support disabled students. This figure was an increase of £2 million on the previous year and has been maintained by HEFCE for 2014/15. This is in addition to the direct support provided to disabled students through the disabled students' allowances (DSA). In England, £125.1 million was spent on providing DSA in 2011/12. (HC Deb 11 June 2014 c216)

# Missing cohorts – primary

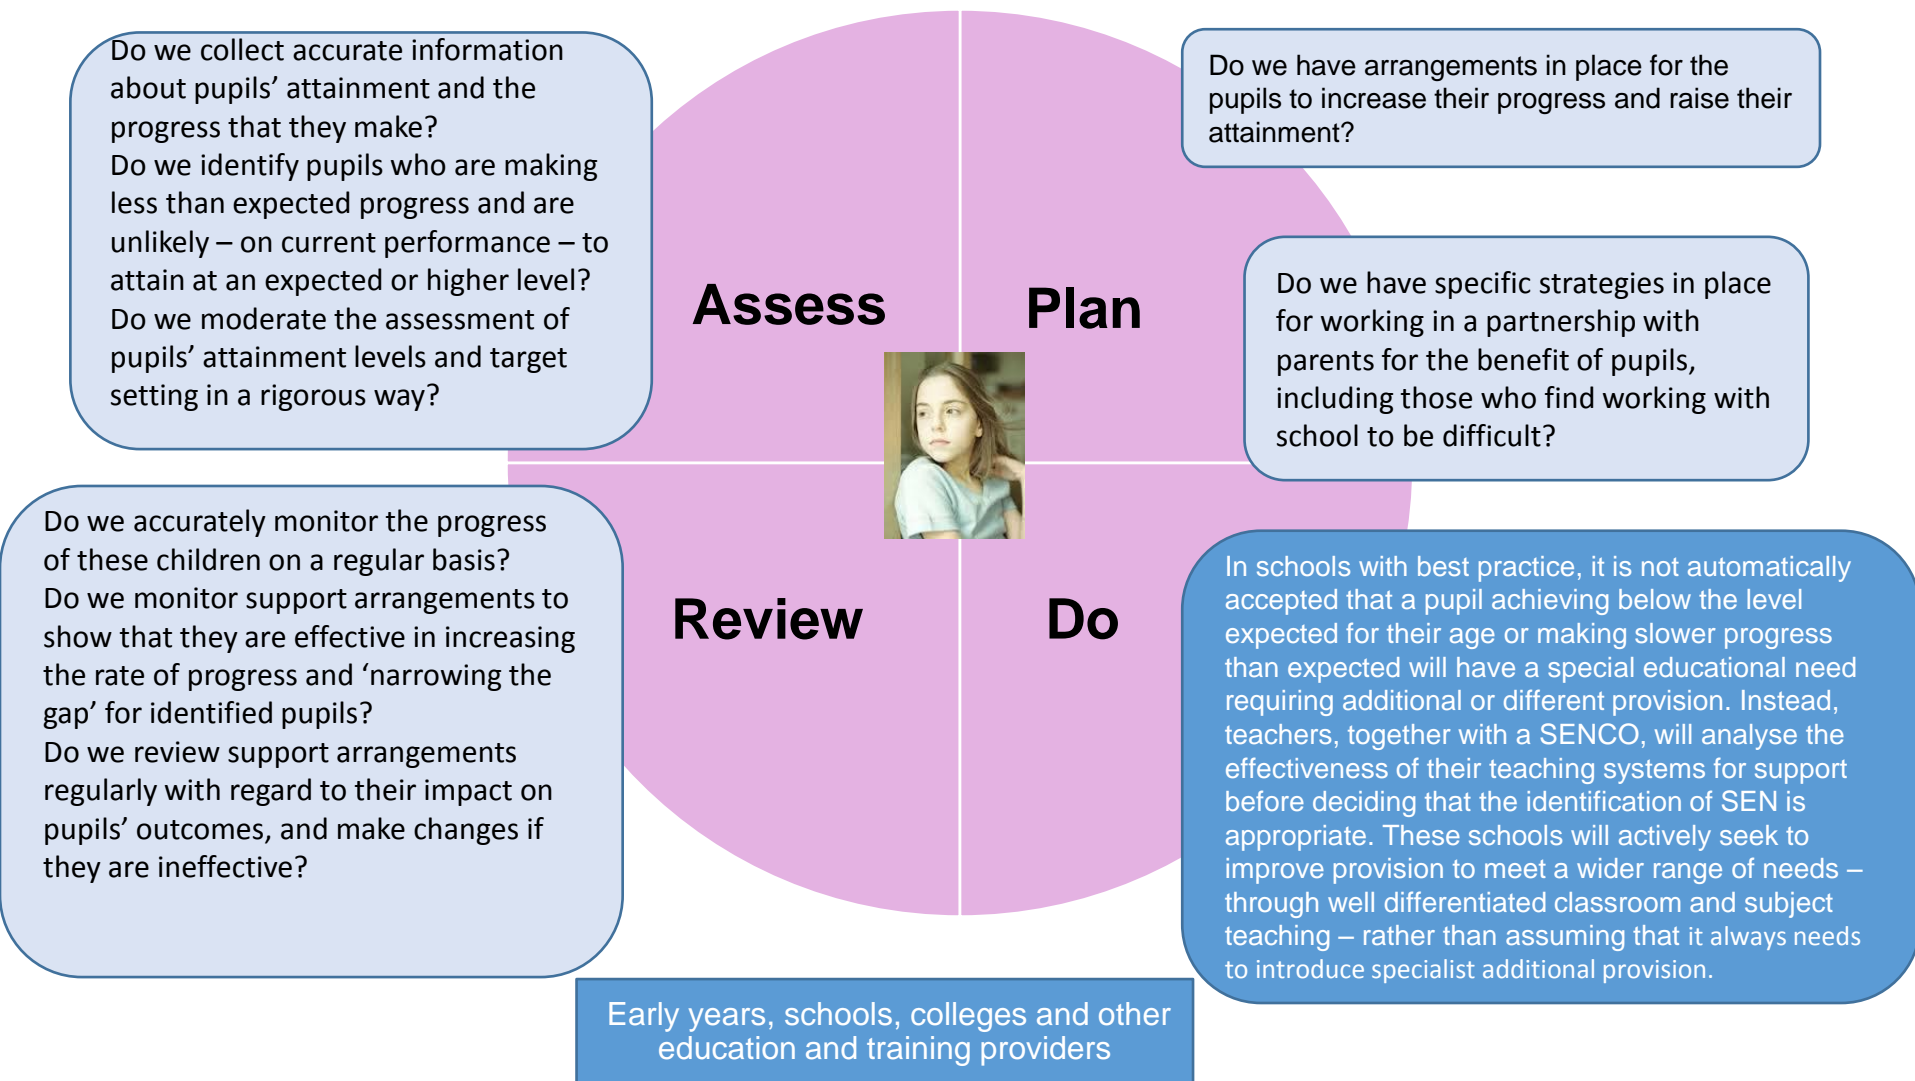

Compared to the incidence of White British pupils identified as G&T at 9.9%

|                             | % incidence | 'Missing' pupils |
|-----------------------------|-------------|------------------|
| Any other White background  | 8.2         | 1940             |
| Gypsy/Romany                | 3.0         | 390              |
| Traveller of Irish heritage | 1.9         | 230              |
| Asian                       | 8.9         | 2890             |
| of whom... Pakistani        | 7.7         | 2660             |
| Bangladeshi                 | 8.9         | 500              |
| Black                       | 9.1         | 1240             |
| of whom... Caribbean        | 10.0        | —                |
| African                     | 8.7         | 1100             |
| Minority ethnic pupils      | 9.4         | 3790             |

(Analysis of DCSF SFR 09-2008)

## The graduated approach: the link between assessment & teaching

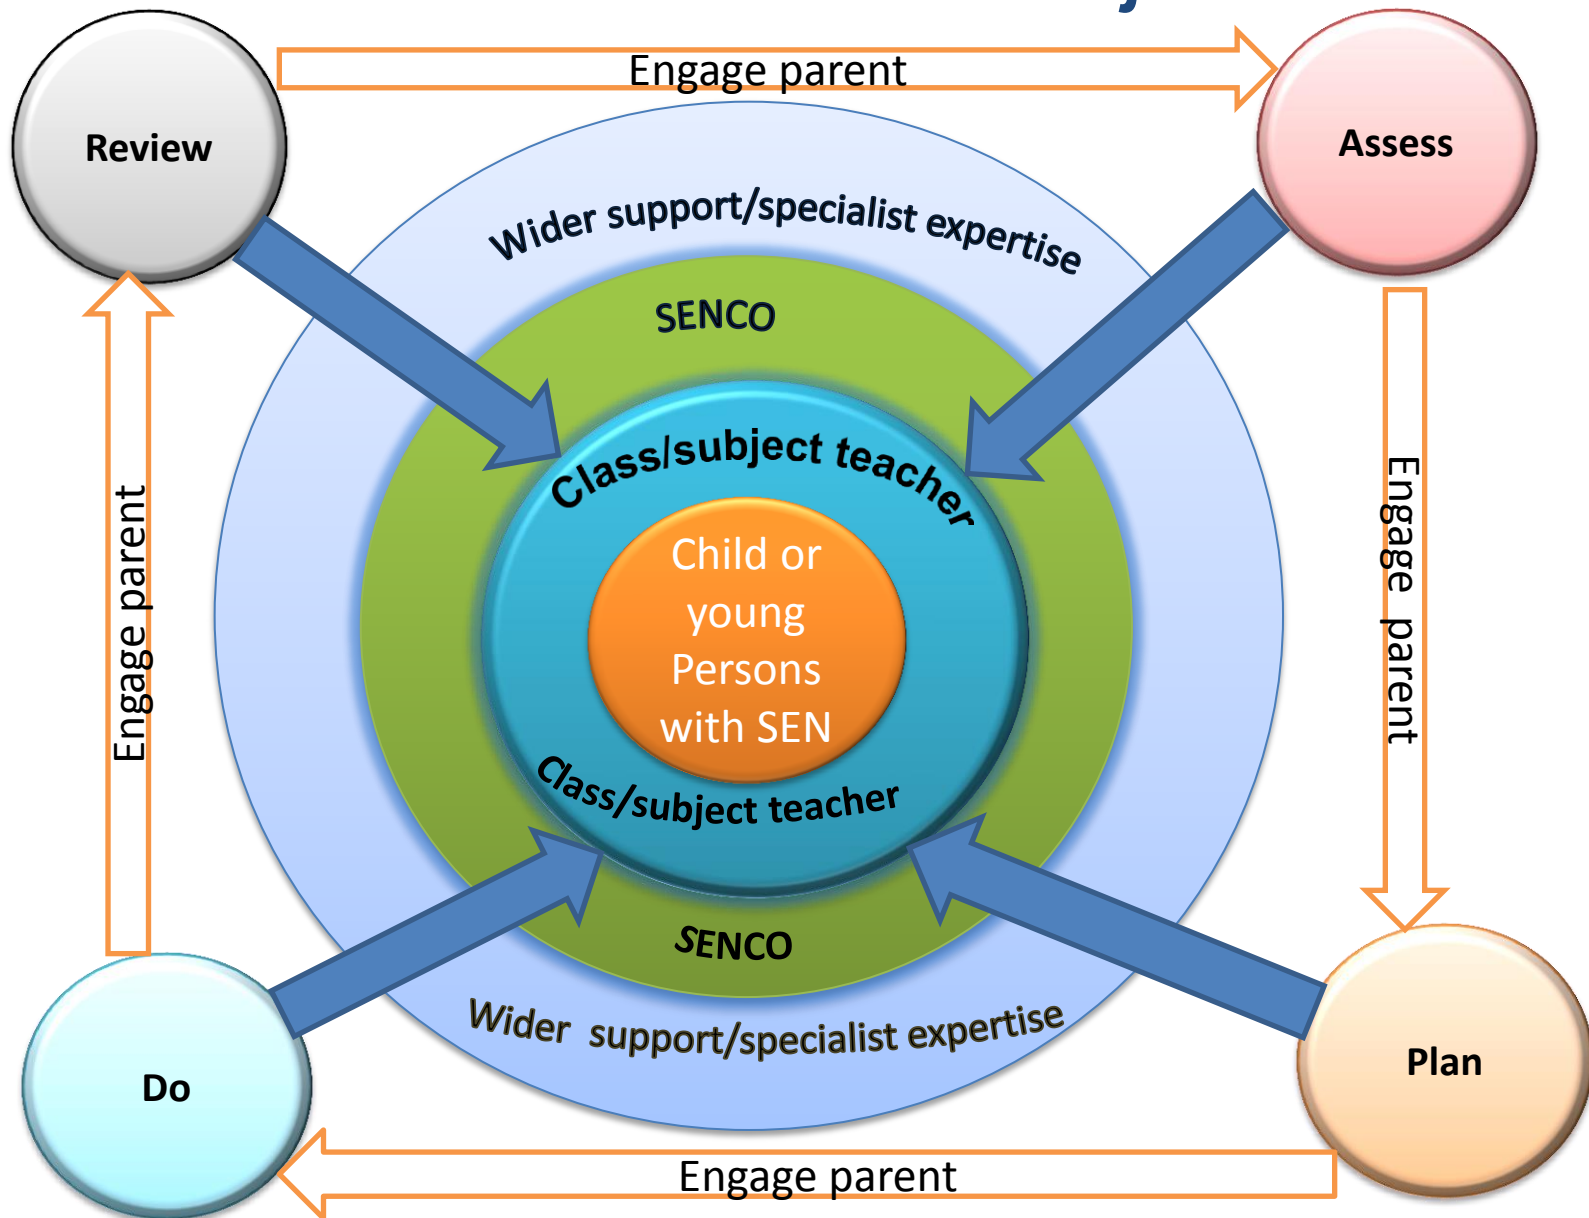

# Expertise

A teacher:

- must demonstrate knowledge and understanding of how pupils learn and how this impacts on teaching (Part 1 Sect 2)
- have a secure understanding of how a range of factors can inhibit pupils' ability to learn, and how best to overcome these (Part 1 Sect 5)

# Reform in practice: SEN Support - the role of the class/subject teacher

# Waves of Intervention Model

# The system

**All teachers** are able to make creative adaptations to classroom practice enabling children with special needs to learn inclusively and meaningfully, alongside their peers

**Some staff** will have additional qualifications or training to enable them to assess pupils and/or oversee the delivery of evidence based intervention programmes.

**Some Schools** may commission services from local and national agencies/charities to work in schools to provide professional development to staff or specific, specialist support to pupils for whom success is elusive and who need an even more personalised programme delivered by an appropriately qualified person

**All pupils receive** universal high quality inclusive teaching, informed by an understanding of the processes of learning and the impact that specific difficulties can have on these. Teachers have high expectations for all and enable children and young people to work at a level which challenges their own abilities

**Parents**

**Student Information Sheets**

## Questions that all schools need to ask themselves

- Do we have high **aspirations** for all of our pupils?
- Do we provide at least **good teaching** for all our pupils?
- Is our provision for pupils based on a careful **analysis of needs** and a **monitoring** of their progress in relation opportunities and outcomes?
- Do we **evaluate the effectiveness** of all our provision to meet a wide range of pupil needs?
- Does our **school leadership team** consider how to make the best provision for a wide range of pupils needs?
- Do we make **timely changes to provision** for pupils where evaluation indicates this is required?
